MODEL
SPLD-150

LIQUID COOLED DIESEL ENGINE GENERATOR SET

KW POWER RATINGS RANGE

Model	HZ	MAXIMUM	STANDBY	PRIME
		150°C RISE	125°C RISE	105°C RISE
SPLD-150	60	15	14	11
	50	12	11	9

“OPEN” GEN-SET

STANDARD FEATURES

- All generator sets are USA prototype built and thoroughly tested. Production models are USA factory built and 100% load tested.
- All generator sets will accept 100% rated load in one step, per NFPA-110.
- All generators are UL-1446 certified. Certain generators are UL-2200 certified.
- Solid state, frequency compensated voltage regulation is standard on all gen-sets.
- A brushless rotating field generator design with shunt wound excitation system and connectable at 1 phase or a broad range of 3 phase voltages.
- SENTINEL “SCOUT” digital controller allows programming to basic engine functions in the field. Controller has stop-manual-auto mode and (8) basic protectors and the functions monitored by LED indicators, plus LCD hour meter.
- The rugged diesel engine is capable of delivering rated power at 1800 RPM (60 HZ) or 1500 RPM (50 HZ).
- All generator set control systems components and accessories provide a 1-year limited warranty at time of initial start-up. Generators and engines are governed by separate warranties.
- “OPEN” Generator Sets: There is no enclosure, so gen-set must be placed within a weather protected area, un-inhabited by humans or animals, with proper ventilation. Muffler and flexible exhaust hose are supplied loose for final exhaust installation by others.
- “STANDARD” Housing: Full weather protection and above average sound attenuation for normal applications. Residential grade muffler is standard.
- “SUPER-SILENT” Housing: Full weather protection and superior sound attenuation for specific low noise applications. Critical grade muffler is standard.

“STANDARD” HOUSED GEN- SET

“SUPER-SILENT” HOUSED GEN-SET

RATINGS: All single phase gen-sets are rated at unity (1.0) power factor. All three phase gen-sets are rated at .8 power factor. “MAXIMUM RATINGS” are for short period running, not exceeding 1 hour, out of every 24 hours period. “STANDBY RATINGS” are strictly for gen-sets that are used for back-up emergency power to a failed normal utility power source. This standby rating allows varying loads, with no overload capability, for the entire duration of utility power outage. “PRIME RATINGS” are strictly for gen-sets that provide the prime source of electric power, where normal utility power is unavailable or unreliable. A 10% overload is allowed for a total of 1 hour, within every 12 hours of operation, on every PRIME RATED systems. All gen-set power ratings are based on temperature rise measured by resistance method as defined by MIL-STD 705C and IEEE STD 115, METHOD 6.4.4. All generators have class H (180°C) insulation system on both rotor and stator windings. All factory tests and KW/KVA charts shown above are based on 150°C (maximum), 125°C (standby), and 105°C (prime) R/R winding temperature, within a maximum 35°C ambient condition. Generators operated at maximum power ratings will not exceed the temperature rise limitation for class H insulation system, as specified in NEMA MG1-22.40. Specifications & ratings are subject to change without prior notice.

STANDARD AND OPTIONAL FEATURES FOR MODEL SPDL-150

COOLING SYSTEM

Type of System	Pressurized, closed recovery
Coolant Pump	Pre-lubricated, self-sealing
Cooling Fan Type (no. of blades)	Pusher (6)
Fan Diameter inches (cm)	13.78" (35)
Ambient Capacity of Radiator °F (°C)	125 (52)
Engine Jacket Coolant Capacity Gal (L)	0.67 (2.5)
Radiator Coolant Capacity Gal. (L)	1.7 (6.5)
Engine Heat Reject. Btu/min. (kw)	1052 (18.5)

Speed	1800 rpm	1500 rpm
Frequency	60 HZ	50 HZ
Water Pump Capacity gpm (L/min)	15 (55)	13 (50)
Heat Reject Coolant: Btu/min (kw) .	1052 (18.5)	881 (15.5)
Note: Coolant temp. shutdown switch setting at 230°F (110°C) with 50/50 (water/antifreeze) mix.		

AIR REQUIREMENTS

Speed	1800 rpm	1500 rpm
Frequency	60 HZ	50 HZ
Air Flow cfm (m ³ /min)	2034 (58)	1695 (48)
Heat Rejected to Ambient:		
Engine: kw (btu/min)	2.9 (165)	2.5 (141)
Alternator: kw (btu/min)	3.2 (196)	2.7 (165)

EXHAUST SYSTEM

Muffler Inlet – Outlet Size	1.5"	
Max. Back Pressure hg	3"	
Speed	1800 rpm	1500 rpm
Frequency	60 HZ	50 HZ
Exhaust Flow, cfm (m ³ /min)	127 (3.6)	114 (3.2)
Exhaust Temp., °F (°C)	1000 (538)	900 (482)

SOUND LEVELS

	<u>Open Set</u>	<u>Std. Encl.</u>	<u>Super-Silent Encl.</u>
dB(A), Residential Muffler, no load	76	72	n/a
dB(A), Residential Muffler, full load	79	75	n/a
dB(A), Critical Muffler, no load	74	67	63
dB(A), Critical Muffler, full load	76	69	66

Note: Open sets (no enclosure) have loose flexible exhaust hose and loose residential muffler, ready for installation by others. Standard enclosure has installed residential muffler. Super-Silent enclosure has installed critical muffler. "Open" sets can be upgraded to critical muffler. Standard enclosure sets can be upgraded to critical muffler. Reduce all sound levels by 5% for 50 HZ, 1500 RPM operation. Sound tests are averaged from several test points and taken at 23 ft. (7 m) from source of noise.

DERATE GENERATOR FOR ALTITUDE

3% per 1000 ft. (305m) above 3000 ft. (914m) from sea level

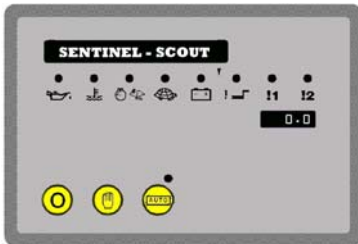

DERATE GENERATOR FOR TEMPERATURE

2% per 10°F (5.6°C) above 65°F (29.4°C)

DIMENSIONS AND WEIGHTS

	<u>Open Set</u>	<u>Standard Enclosure</u>	<u>Super-Silent Enclosure</u>
Length in (cm)	48 (122)	65 (165)	65 (165)
Width in (cm)	34 (86)	34 (86)	34 (86)
Height in (cm)	35.5 (90)	35.5 (90)	35.5 (90)
Net Weight lbs (kg)	800 (363)	1100 (499)	1250 (567)
Ship Weight lbs (kg)	900 (408)	1200 (544)	1350 (612)

SENTINEL SCOUT DIGITAL MICROPROCESSOR CONTROLLER

SENTINEL SCOUT

This flexible controller allows programming to 8 basic engine functions in the field, and is standard equipment on all 4-pole gen-sets.

Controller has STOP-MANUAL-AUTO mode and (8) basic engine LED indicators: Low oil pressure • High engine temp • Over speed • Under speed • Fail to start • Battery charge fail • and two auxiliary LED outputs.

SPECIAL FEATURES : Micro-processor design • Auto engine stop-start with (3) start attempts before final shutdown • Auto shutdown on fault condition • Push button operation • Adjustable start or stop delay timer • Energize to stop timer • Pre-heat timer • LED alarm indication • External remote start input • Load switch output capability • Solid state fuel and engine crank outputs • Tamper-proof engine hours LCD counter

SENTINEL III UPGRADE :

Digital controller with (47) different reporting functions programmable by means of graphic LCD display.

SENTINEL IV UPGRADE :

This controller is the same as the SENTINEL III, plus: monitors utility power • Communication via optional RS-232 port. Use this controller with remote annunciators.

STANDARD AND OPTIONAL FEATURES FOR MODEL SPLD-150

STANDARD FEATURES

CONTROL PANEL:

- SENTINEL "SCOUT" digital microprocessor with logic allows programming in the field. Controller has:
 - STOP-MANUAL-AUTO modes and (8) basic engine LED indicators
 - Low oil pressure
 - High engine temp
 - Engine over speed
 - Engine under speed
 - Engine fail to start
 - Battery charge fail
 - Two auxiliary LED outputs
- Also included is tamper-proof engine hour meter

ENGINE:

- Fuel filter • Full flow oil filter • Air filter • Fuel pump • Oil pump • Solenoid type starter motor • Hi-temp radiator
- Jacket water pump • Thermostat • Pusher fan and guard
- Exhaust manifold • Residential Silencer • Mechanical Governor • 12 VDC battery charging alternator • Flexible fuel and exhaust connectors • Vibration isolators • Open coolant system with 50/50 water/antifreeze mixture • flexible oil & radiator drain hose

GENERATOR:

- AC generator • Shunt excited • Brushless design • Single bearing • Direct connection to engine with flex disc • Class H, 180°C insulation • Self ventilated • Drip proof construction

VOLTAGE REGULATOR:

- 1% Voltage regulation • EMI filter • Under-speed protection • Over-excitation protection • Total encapsulation

ELECTRICAL:

- Battery tray • Battery cables • Battery hold down straps • 2-stage battery float charger

SUPPORT:

- Operation, maintenance, and installation literature. Call 1-800-777-9639 or Fax 1-574-262-1840
- E-mail : engineering@gillettegenerators.com
- Web : www.gillettegenerators.com

ACCESSORY ITEMS

- Engine Coolant Heater with automatic 80°F on, 100°F off, thermostat
- Starting Battery Heater Blanket with automatic 60°F on, 80°F off, thermostat
- Battery Charger, float type, 12 VDC at max. charge, with ammeter.
- Radiator for dirty environment
- External Permanent Magnet Generator (PMG) for increased induction motor starting capacity, on 1Ø or 3Ø sets, and to meet NFPA-110 requirements.
- Exhaust Silencer (Critical Grade) installed on "OPEN" sets or standard housing.
- Circuit Breaker installed and wired on gen-set
- Circuit Breaker with NEMA-3R Enclosure. Note: These breakers are shipped loose for installation in remote outside area by others.
- SENTINEL III digital programmable controller with up to (47) different reporting functions.
- SENTINEL IV Controller with all features of Sentinel III, plus allowing full telemetry remote control annunciation, and utility power monitoring.
- Remote annunciator for up to (10) reporting functions. An additional relay expansion module, plus a second annunciator adds another (10) reporting functions. Note: SENTINEL IV must be selected, to achieve remote annunciation.
- All aluminum weather and sound deadening housing for coastal areas. (allow 8-10 weeks for special order)
- Double wall, Sub-Base Diesel Fuel Tanks with UL-142 certification.

Design & specifications subject to change without prior notice. Dimensions shown are approximate. Contact Gillette for certified drawings.
DO NOT USE DIMENSIONS FOR INSTALLATION PURPOSES.
